I will forward a copy of my memo to the county executive for her review. However, it is the office of the corporation counsel that provides the county with legal opinions and interpretations. I will forward the memo with your request but I cannot require her to provide a response.

If you have any questions or concerns, please let me know.

Subject: review of county library documents

Hi John,

I have reviewed the Lakeshores Library System & Racine County Library Service Agreement approved by the Racine County Board in 1989. The language of that agreement appears to commit Racine County to reimbursement of any system library serving Racine County residents who do not live in a library community, and provides a formula for calculating the funding level and reimbursement amounts for that service.

In addition, as we discussed earlier, existing county-approved documents meet the other requirements for content of a county library plan under Wis. Stat. Sec. 43.11.

The Division for Libraries, Technology, and Community Learning is willing to accept, in lieu of a new or amended county board-approved library plan, a statement from the County Executive confirming your interpretation of the existing county board-approved documents.

Please contact me if you have any questions.

Mike
